STATINTL

MEMORANDUM FOR: Executive Officer to the DDA

STATINTL

FROM : [REDACTED]  
Office of General Counsel

SUBJECT : ODP Meeting with ADP Personnel of Hartford  
Insurance Company

You have advised OGC of a proposed meeting between data processing personnel of ODP and the Hartford Insurance Company to discuss general technical problems related to "adding a fifth processor to an existing 4 CPU ASP environment." I see no difficulty with allowing such a meeting providing:

a. there is no security problem with disclosure by IBM or ODP of the extent and nature of CIA computer facilities and operations;

b. such consultations are mutually beneficial and do not consume more than minimal amounts of Agency personnel or funds; and

c. the Agency does not become involved in a situation where its expertise might result in an unfair competitive advantage for any commercial enterprise.
